Re: Cave Pool Unit #46

Gentlemen:

We are returning the enclosed Form C-103 for some additional information.

Commission Order R-2385, approving this flood states in part that the casing in all injection wells shall be tested to withstand 2000 pounds psi casing pressure prior to injection.

We feel that this test is a part of the preparation of this well for injection and said test and the results should be reported.

Also, in checking our file we find that we do not have Commission Form C-105 (Well Record) on this well. Please file said Form C-105 at your earliest convenience.

Very truly yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Oil & Gas Inspector

Dear Sirs:

Reference:

We are returning the enclosed form (G-10) for some additional information.

Commission Order 1-2382, approving this flood stage in part that the casing in all injection wells shall be tested to withstand 2000 pounds per casing pressure prior to injection.

We feel that this test is a part of the preparation of this well for injection and said test and the results should be reported.

Also, in checking our file we find that we do not have Commission Form G-10 (Well Record) on this well. Please file said form (G-10) at your earliest convenience.

Very truly yours,

JOHN CONNOR (DIRECTOR)

W. A. Green
Oil & Gas Inspector
