Square Lake Eddy New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3648 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Well has not produced oil since February, 1967, and we request permission to temporarily abandon well. We do not wish to permanently abandon the well at this time. Due to possibility of use in future waterflooding.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Kewanee Oil Company
