Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We replaced existing 2" rusted metal water injection lines w/3" fiberglass water injection lines. One line begins @ the Square Lake Water Injection Plant which is located @ well #108 (1980 FNL 1980 FWL Sec. 12-T17S-R29E) runs northeast 1867' to well #105 (660 FNL 1980 FEL Sec. 12-T17S-R29E), starts @ #105 runs northeast 1867' to well #102 (660 FSL 660 FEL Sec. 7-T17S-R30E), starts @ #102 runs northeast 1867' to well #100 (1980 FSL 660 FWL Sec 6- T17S-R30E). The other line runs from water flood plant @ #108 (1980 FNL 1980 FWL Sec. 12-T17S-R29E) to the east 4986' to the #110 (1980 FNL 1980 FWL Sec. 7-T17S-R30E). Both replacement lines were buried in the same location as the old injection lines. The line from #108 to #110 was run down an existing road. A map showing these lines is attached for your files.

18. I hereby certify that the foregoing is true and correct
