Hobbs, New Mexico

Attention: Mr. Frank M. Sarman

Dear Sir:

Please find enclosed herewith one copy of O.C.C. Form C-103, report on sandfrac treatment and increase in production from 3 BOPD to 44 BOPD on your M. Dadd "B" Lease, Well No. 1, in proration unit "A", Section 14, 17E-29E, Anderson Pool, Eddy County, New Mexico.

Since this well is located on federal land, you should submit this report to the Artesia Office of the U. S. Geological Survey in triplicate on their Form 9-331a, Sundry Notices and Reports, on wells for the approval of John A. Frost, District Engineer.

I am forwarding a copy of the O.C.C. Form C-103 to A. L. Porter, Jr., Proration Manager, at Hobbs as you will need an allowable revision for your well and I suggest that you contact Mr. Porter in regard to this matter.

Yours very truly,

OIL CONSERVATION COMMISSION

L. A. HANSON
Supervisor, Oil & Gas Inspector
