N. Dodd "A" Lease _____ May 26 _____, 1956

Well No. 19 is located 1650 ft. from [S] line and 1650 ft. from [E] line of sec. 15NE/4 of SE/4 17S 29E _____
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)Undesignated Eddy New Mexico
(Field) (County or Subdivision) (State or Territory)Grayburg-Keely (40)The elevation of the derrick floor above sea level is 3592 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill with cable tools to the Grayburg-Keely zone at approximately 3280'.

We propose to set 8 5/8" Surface casing @ 400' and cement to surface.

We propose to set 5 1/2" Oil String and cement w/300 sacks.

We propose to sand oil frac during completion.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Sunray Mid-Continent Oil CompanyAddress Box 128Hobbs, New MexicoBy J. A. ParryTitle Hobbs Area Superintendent

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the transparency and accountability of the organization. This section also outlines the various methods used to collect and analyze data, ensuring that the information is reliable and up-to-date.

2. The second part of the document focuses on the implementation of these practices. It details the steps involved in setting up a robust system for data collection and analysis. This includes identifying the key areas of focus, selecting appropriate tools and technologies, and training staff to ensure they are equipped to handle the data effectively. The goal is to create a seamless process that allows for the efficient management of information.

3. The third part of the document addresses the challenges that may arise during the implementation process. It provides strategies for overcoming common obstacles, such as resistance to change or limited resources. By anticipating these challenges and having a plan in place, the organization can ensure a smoother transition to the new system. This section also highlights the importance of ongoing communication and collaboration between all stakeholders involved.

4. The final part of the document discusses the long-term benefits of the implemented system. It explains how the improved data management practices will lead to better decision-making, increased efficiency, and enhanced overall performance. The document concludes by reiterating the commitment to continuous improvement and the importance of regularly reviewing and updating the system to meet the evolving needs of the organization.
