PULL OR ALTER CASING ☐	OTHER ☐	CASING TEST AND CEMENT JOBS ☐	
		OTHER ☐	

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We propose to plug & abandon this well using the following procedure:

Run impression block - check for top of junk.

Dependent upon impression block - possibly attempt to fish out junk or tubing.

Determine free point of 6 5/8" by stretch - if possible - pull entire string, if free.

(a) if 6 5/8" was free - run tubing and spot cement plugs as directed by OCC.

(b) if 6 5/8" partially free - pull all possible casing - run tubing & spot cement plugs as directed by OCC.

Pull 8 5/8" surface casing if possible, then spot remaining plugs as directed by OCC.

Above program is subject to change dictated by well conditions and OCC approval.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Jack Lemon TITLE Manager-Engineer DATE May 2, 1979
