Re: Leonard State No. 2

Dear Sir:

In reply to your letter of April 9, 1963, I want to apologize for the delay in replying. I wanted to make sure of the facts and it took longer than I expected to get all my information.

The last report (Form C-103) we filed, on March 3, 1959, we indicated the well was to be temporarily plugged and abandoned, with the intention of possibly using the well as a water source well for a water flood project.

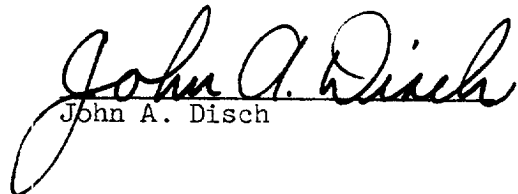

On March 17, 1959 we sold and released the well and the forty (40) acres the Leonard State No. 2 was located on. The description of the property being as follows: SE/4 - NE/4 of Section 21, T-17-S, R-29-E, Eddy County, New Mexico.

I have not been able to find out if the well is still plugged or if it is being used. We sold the well to Leonard Oil Company whose address is Box 708 in Roswell, New Mexico.

If our company can furnish any information or be of any more assistance, please contact us.

Sincerely,

EL PASO NATURAL GAS COMPANY

John A. Disch
