16. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well is temp. abandoned.

The perfs 8740-48 produced water by swab test in March, 1959 at rate of 50-100 bbls per hour while maintaining fluid level @ 1200'.
A cast iron bridge plug was set @8734 above the perfs and a relief valve is installed at the surface on top of the 7" casing.
The well is being held as a possible water source for flooding in the future.
