LOG OF OIL OR GAS WELL

Company Name _____
Field _____
County _____
State _____
Location _____
The information given in this log is a complete and correct record of the well and all work done thereon so far as can be determined from available records.
Signed _____
Title _____

Date _____
The summary on this page is for the completion of the well at above date.
Commenced drilling _____
Finished drilling _____

Current plugs set as listed below

Case	Weight	Length	Make	Amount	Kind of shoe	Cut and drilled from	Separated	Purpose
------	--------	--------	------	--------	--------------	----------------------	-----------	---------

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was added, state the size and location. If the well has been dynamited, give date, size, position, and number of shots. If logs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bedding.
