	INFO A II S	S OF WORK			
ate names of and expected depths to objective sand	ie show sizes.	S OF WORK weights, and lengths of p	roposed casings	; indicate mudding j	obs, cemen
ate names of and expected depths to objective sand ing point	ie show sizes.		roposed casings ork)	; indicate mudding j	obs, cemen
ate names of and expected depths to objective sand ing point	ie show sizes.	weights, and lengths of I	roposed casings ork)	s at 9200°	and
ate names of and expected depths to objective sanding point	ie show sizes.	weights, and lengths of I	roposed casings ork)	ps at 9210° and acidino	and this
Propose to re-ester the show	ie show sizes.	weights, and lengths of I	roposed casings pick) ging plus e 9300° s after will	s at 9200°	and this
Propose to re-enter the short profession of an expected depths to objective sand ing point profession of an expected depths to objective sand profession of the same of the	ie show sizes.	weights, and lengths of I	proposed casings plant p	ps at 9210° and acidino	and this
Propose to re-enter the short proposed file meeting from the short and attempt to develop a meeting with a proposed file	ie show sizes.	weights, and lengths of I	oroposed casings ork)	ps at 9210° and acidino	and this
Propose to re-enter the show in profession and expected depths to objective sand ing points. Propose to re-enter the show in an attempt to develop a smootion with a proposed pile	ie show sizes.	weights, and lengths of I	oroposed casings ork)	ps at 9210° and acidino	and this
Propose to re-enter the show (iv) profession of making from the in an attempt to develop a mostion with a proposed pile	ie show sizes.	weights, and lengths of I	roposed casings ork)	ps at 9210° and acidino	and this
Propose to re-enter the show in preference ? seeing from in an attempt to devolop a meetion with a proposed pile	ie show sizes.	weights, and lengths of I	oroposed casings ork)	ps at 9210° and acidino	and this
Propose to re-enter the sheet of propose to re-enter the sheet of profession of the sheet of the	ie show sizes.	weights, and lengths of I	oroposed casings ork)	ps at 9200° ; md acidiae ; be used in	ned this
Propose to re-enter the show in profession of an actual to develop a mostion with a proposed pile	ie show sizes.	weights, and lengths of I	oroposed casings ork)	e at 9200° mid acidiae in the mand in	
Propose to re-enter the show of preferate and expected depths to objective sand ing points. The show of in an attempt to develop a	ie show sizes.	weights, and lengths of I	oroposed casings ork)	ps at 9200° ; md acidiae ; be used in	
Propose to re-enter the show Not, preferate ?" ensing from ne in an attempt to develop a smeetion with a proposed pile	ds; show sizes, te, and all other sizes.	weights, and lengths of per important proposed we drail out bridge which is a second per justing the second per ju	ging plug a 9300° a mher will	D F 6	0 1257
Propose to re-enter the short ing points of the short ing points of the short ing points in an attempt to develop a short in a proposed place. I understand that this plan of work must receive	ds; show sizes, te, and all other sizes.	weights, and lengths of per important proposed we drail out bridge which is a second per justing the second per ju	ging plug a 9300° a mher will	D F 6	1 1257
Propose to re-enter the short (if, preferate 7 enting from in an attempt to develop a mostion with a proposed pile I understand that this plan of work must receive	ds; show sizes, te, and all other sizes.	weights, and lengths of per important proposed we drail out bridge which is a second per justing the second per ju	ging plug a 9300° a mher will	DE F	1 1257
Propose to re-enter the short proposed from the strengt to develop a mostion with a proposed file of the strengt to develop a mostion with a proposed file of the strengt to develop a mostion with a proposed file of the strengt to develop a mostion with a proposed file of the strengt to develop a mostion with a proposed file of the strengt to develop a most of t	da; show sizes, te, and all other te, and all ot	weights, and lengths of per important proposed we call out bridges and bridges and bridges are per important per justice. This trings by the Geological Section 1990 and 1990 are per justice.	ging plug a 9300° a mher will	DE F	1 1257
Propose to re-enter the short of preferate and strengt to develop and the proposed plant of work must receive ompany control of the short of the sho	da; show sizes, te, and all other te, and all ot	weights, and lengths of per important proposed we call out bridges and bridges and bridges are per important per justice. This trings by the Geological Section 1990 and 1990 are per justice.	ging plug a 9300° a mher will	DE F	1 1257
Propose to re-enter the short (if, preferate 7 enting from in an attempt to develop a mostion with a proposed pile I understand that this plan of work must receive	da; show sizes, te, and all other te, and all ot	weights, and lengths of per important proposed we call out bridges and bridges and bridges are per important per justice. This trings by the Geological Section 1990 and 1990 are per justice.	ging plug a 9300° a mher will	DE F	1 1257
