Gentlemen:

The above well was found to have a waterflow problem, with some oil in the water. We are asking that you repair the waterflow problem on this well.

The work on the subject well will be in compliance with the New Mexico Oil Conservation Division, and should be completed by April 30, 1980.

If you have any questions concerning this problem please contact me at this office.

Sincerely yours,

Mike Williams  
Oil & Gas Inspector
