FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Upon completion of the above well, we propose to lay flow line from well head to existing separator and lease tanks now serving our Bay State No. 1, located C-SE 1/4, 28-17S-29E (State Lease B-255). Leonard Oil Company owns both State leases involved, both leases are held by production and both leases are Common School Lands. The royalty interest in each lease is identical and there are no overriding royalties. A valve system will be installed at the separator so that either well may be easily tested.
