Re: Salt Water Disposal
State I Well No. 16
Eddy County, New Mexico

Dear Sir:

Our State I Well No. 16 located in Section 29, T17S, R29E, in the Empire Abo Field, Eddy County, is currently producing approximately 200 barrels of water per day. There are no economic means available to dispose of this water on the lease. We plan to lay a line from this lease to our nearby G-J West Co-op Unit and dispose of the water through our operations of this Unit.

As per Mr. Watkins verbal discussion with you on this procedure, we would appreciate your approval of this arrangement.

Yours very truly,

TENNECO OIL COMPANY

I told them this was
OK but didn't know it was in
your District! Why don't you answer
this for him. JGR*
