

NEW MEXICO OIL CONSERVATION COMMISSION  
MISCELLANEOUS REPORTS ON WELLS  
(Submit to appropriate District Office as per Commission Rule 1106)

Company W. W. Williams  
(Address)  
Lease State Well No. 1 Unit N S 31 T 17S R 29E  
Date work performed 10-22-55 POOL Loco Hills

This is a Report of (Check appropriate block) ☐ Result of Test of Casing Shut-off  
☐ Beginning Drilling Operations ☐ Remedial Work  
☒ Plugging ☐ Other

Detailed account of work done, nature and quantity of materials used and results obtained.

We have plugged this well as follows: We filled the hole from total depth of 2740 back to 2650 with mud and set a bridge and a plug of 5 sacks of cement at that point. Then we filled the hole with mud to the base of the salt and set a plug of 5 sacks of cement at that point, then we filled the hole with mud to the top of the salt and set another plug of five sacks of cement there. Then we knocked off the 8 5/8" casing which had been set and cemented at 330 feet. We recovered 261 feet of the casing and set a plug of 5 sacks of cement in the top of the casing left in the hole. We then filled the hole with mud to the surface and cemented the cellar and set a regulation marker.
