Well Shut In on 4/30/73 pending installation of separate storage facilities since this well and acreage was not included in the Robinson-Jackson Unit that became effective May 1, 1973.

The original battery stie and oil storage facilities were revamped along with the placement of a gas sales meter run to insure separate handling and measurement of all oil and gas produced from this well and well #18 which was located on the same lease that was also excluded from the Unit. (See Plat)

No unit production (oil or gas) goes through this battery. Well placed back on active status 8/1/73.
