We propose to drill well with drilling equipment as follows Cable Tools

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Covered by blanket bond of Allen Fair & Pope, Inc.

We propose to use the following strings of casing and to land or cement them as indicated:

| SIZE OF HOLE | SIZE OF CASING | WEIGHT PER FOOT | NEW OR SECOND HAND | DEPTH | LANDED OR CEMENTED | BACKS CEMENT |
|--------------|----------------|-----------------|--------------------|--------------|--------------------|--------------|
| 10" | 8 1/4" | 28# | Second Hand | Approx. 500' | Cemented | 50 Sks. |
| 8 1/4" | 7 O.D | 20# | New | 3100' | Cemented | 100 Sks. |

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 3150 feet.

Additional information: This new well will be second well on this forty acres.

The present well 4 A is not profitable and because of shot-hole it is not desirable to deepen to the lower zone which we expect to find profitable in the new well.

Approved SEP 12 1945, 19.....
Except as follows:

"APPROVAL CONDITIONED UPON
COMPLIANCE WITH REQUIREMENTS
