

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

H. W. SNOWDEN

Merrill State

Well No. 3 in NE 1/4

Company or Operator

Lease

of Sec. 2, T. 17S, R. 30E, N. M. P. M., Square Lake Field,  
Eddy County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Since this well has been swabbed and tested and found to be non-productive, it is our intention to plug and abandon it. There is 1280' of 8" O.D. casing set with 50 sacks of cement and 2390' of 7" O.D. casing set with 100 sacks of cement in this well. We will pull as much of this pipe as it is possible to recover and plug by the following program:

Fill with heavy mud from total depth to base of oil string, set cement plug at this point, fill with heavy mud to point where pipe is shot, set cement plug. Fill with heavy mud to base of surface string, set cement plug. If any of the surface string can be recovered, a cement plug will be set at point pipe is not or parted and the hole will be filled with mud to surface where cement plug and regulation marker will be placed. Work to begin immediately.

Total depth of this well is 3060'

Approved  
except as follows:
