17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to mechanical integrity testing performed by NMOCD, we have been ordered to repair small casing leak. The repair procedure will not be apparent until we locate the leak. We propose to backflow the well into a small pit to be dug next to well. Request permission to dig 30' X 30' X 6' pit adjacent to well.

Pit must be lined
