17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This water injection well has been active since 1969 until November 1, 1988, when it was shut in due to not being beneficial to continued waterflooding, and economics. Due to some indications of the well being able to flow back small quantities of oil, we request your approval to convert this well to a producing oil well.
