

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELL

DUPLICATE

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-offs, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

Title

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It mentions the use of surveys, interviews, and focus groups to gather information from stakeholders. Additionally, it discusses the use of statistical software to process and interpret the data.

3. The third part of the document describes the results of the data analysis. It highlights the key findings and trends identified in the data. For example, it notes that there is a significant increase in customer satisfaction over the past year, which is attributed to the implementation of new service protocols.

4. The fourth part of the document provides a detailed analysis of the data, including a breakdown of the results by department and region. It also includes a comparison of the current data with historical data to identify any changes or trends over time.

5. The final part of the document concludes with a summary of the findings and a list of recommendations for future action. It suggests that the organization should continue to monitor and improve its processes to maintain the high level of customer satisfaction achieved.
