County, New Mexico.

Gentlemen:

We have in our file a Form C-102, Notice of Intention to Drill Deeper, from old total depth of 2135 feet to a new total depth of 2875 feet on the above mentioned well. This notice was filed March 26, 1954; however, we have never received any follow up report of operations.

If this well has been deepened you should file Form C-105 Well Log of the additional footage, or if the well is temporarily abandoned you must file Form C-102, Notice of such, and approval obtained.

Yours very truly,
