DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

We shot the above described well October 22, 1942, from 2101 to 2119 with 80 quarts nitroglycerin.

This well had sanding up and we had to pull tubing to clean out. While tubing was out we ran jeep, and decided to shoot it as above. Cleaned out to bottom of hole. Corrected total depth-2120'.

Well now flowing through casing. After tubing is run can get gauge as to results.
