REPORT ON THE PROGRESS OF THE AMERICAN MEDICAL ASSOCIATION

The American Medical Association has been very active in the past year. It has held its annual meeting in Atlantic City, N. J., from June 17 to 22, 1918. The meeting was the largest ever held by the Association, with over 1,000 delegates from all over the country. The program was very full, with many sessions on the latest developments in medicine and surgery. The Association has also been very active in the promotion of medical education and research. It has published many books and pamphlets on various subjects, and has supported many research projects. The Association has also been very active in the promotion of public health. It has held many campaigns for the prevention of disease, and has been very successful in its efforts.

The American Medical Association has also been very active in the promotion of medical ethics. It has published many books and pamphlets on the subject, and has held many campaigns for the improvement of medical ethics. The Association has also been very active in the promotion of medical legislation. It has held many campaigns for the improvement of medical laws, and has been very successful in its efforts.

The American Medical Association has also been very active in the promotion of medical research. It has supported many research projects, and has published many books and pamphlets on the results of its research. The Association has also been very active in the promotion of medical education. It has held many campaigns for the improvement of medical schools, and has been very successful in its efforts. The Association has also been very active in the promotion of public health. It has held many campaigns for the prevention of disease, and has been very successful in its efforts.
