DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This well will be cleaned out to 3174' ... logged and equipped with tubing and packer in tension. The well will be converted to water injection under a unit water flood program.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
