MCFGPD TSTM

BWPD 50

Date Last Tested June 15, 1976

4. Is Well Considered Capable of Production in Paying Quantities?

Not as is

☐ Yes☒ No

5. If Capable of Producing in Paying Quantities, Give Reasons For Not Producing Well.

RECEIVED

AUG 3 0 1976

U. S. GEOLOGICAL SURVEY  
ARTESIA, NEW MEXICO

6. If Not Capable of Producing in Paying Quantities, Give Reasons For Not Plugging Well At This Time.

As this well is now in a waterflood, and has produced oil in paying quantities on primary and secondary production, it should be held for possible tertiary production.

7. What Are Future Plans For Operating Well (Include Estimated Dates)?

Production equipment, pumping unit, etc. were pulled off of this well and put on a 50 - 60 BOPD new well. As time and money permits, within the next 6-12 months, it is planned to check well to determine where water break-through is coming from and fix if possible. If this is done, the well may produce oil in paying quantities from offset injection.

I hereby certify that the foregoing is true and correct
