(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)

We have been reporting this well temporarily abandoned erroneously.
This well is Shut In and has been so since 1982. We will show future
reports to read 'Shut In'.

We request that this well be allowed to remain on a Shut In Status for
another year as we are in the process of renegotiating new gas contracts
that will make it more economically feasible to begin producing oil and
gas again. When the gas contract is negotiated, we will rework the well
and commence production.
