17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS: (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

On November 1, 1988, this water injection well was shut in due to a number of producing Unit wells being shut in because of economics, resulting in a reduction in the barrels of water produced, necessitating a reduction in the number of active injection wells. We request approval to keep this well shut in until such time as economics permit us to resume operations of the shut in producing wells.

18. I hereby certify that the foregoing is true and correct
