Artesia, New Mexico
Attn. Mr R. L. Beekman

Dear Sir:

In reply to your requests for subsequent reports on our Grayburg Jackson Unit as indicated on your attached letters, please be advised that this work was postponed until a later date and has not been completed. It is entirely possible that we will still want to do this work but in order to clear your records and expedite handling, please destroy or void the notice of intent you have on these wells. In the event that we later decide to go ahead with this work, we will file new notice of intent with your office.

If we may be of further assistance in this matter, please so advise.

Very truly yours.

ANADARKO PRODUCTION COMPANY
