Mr. M. L. Armstrong,
Supervisor & Oil and Gas Inspector
New Mexico Oil Conservation Commission
207 Carper Building
Artesia, New Mexico

Dear Mr. Armstrong:

Attached are forms in the proper number of copies of your Form C-104 Request for Oil Allowable and of your Form C-110 Certificate of Compliance concerning our Jackson 22-B, an Abo producer, located in the center of the NE/4 of the SW/4 of Section 24-17-30, Eddy County.

We are at a loss to determine what pool this well lies in. It is a mile and three-quarters from the nearest production in the Cedar Lake Abo Pool, and there are two dry holes between this well and production in the Loco Hills Abo. We suspect it will prove to be a part of the Cedar Lake Abo, but we can not say that to you now with any assurance, and we have so designated it on the attached forms with a question mark.

Yours truly,

NASH, WINDFOHR AND BROWN

R. F. Windfohr

cc Mr. Jas. A. Knauf, District Engineer

Commission - Artesia, New Mexico - 3/21/61

P.S.

If you have any reservation about putting this well in the Cedar Lake Abo Pool, we will not make any objection pending further development to your putting it in the undesignated group and assigning it a 6,000/7,000 foot allowable, since the lowest perforation is at 6,980 or 20 feet shallower than the 7,000 foot bracket.

R.F.W.
