Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was originally drilled to a depth of 2022' in December, 1951. 7" 20# casing was set to depth of 1920'. In February of 1965 well was deepened to a depth of 3192' and 5-1/2" 15.5# casing was set to depth of 3164'. We propose to set a bridge plug above Premier Sand, back 5-1/2" casing off below Seven Rivers zone and salvage same. Sand frac Seven Rivers and return well to production. This well is part of a group of shut-in wells.
