17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

We originally proposed to plug and abandon the Premier zone, re-cement across Seven Rivers, perforate and sand frac the Seven Rivers. After digging small workover pit well was being backflowed and started showing oil. Test tank was placed on location.

We propose to convert this well from injection to producing. After well stops flowing we propose to place well on pump from Premier zone.
