O. C. D.
ARTESIA, OFFICE

Dear Mr. Irby:

You are hereby granted permission to utilize the Woolley Federal Well No. 1, located in Unit M, Section 21, Township 17 South, Range 30 East, NMPM, Eddy County, New Mexico, as a salt water disposal well.

This well was previously authorized by Division Order No. R-3580, and it is my understanding that you will inject in the interval 6750-6830 feet, through lined tubing, below a packer set near the top of the perforated interval. The tubing-casing annular space will be filled with an inert fluid and surface injection pressure will not exceed 1350 psi, unless you can satisfactorily prove that the formation can withstand higher pressure without fracturing.

Yours very truly,

JOE D. RAMEY
Director
