MEMORANDUM

TO: THE COMMISSIONER

SUBJECT: THE OIL PRODUCTION

The Commission has received information regarding the oil production in the state of New Mexico. The information indicates that the production of oil in the state is increasing at a rapid rate. This increase is due to the discovery of new oil fields and the expansion of existing fields. The Commission is concerned about the impact of this increase on the environment and the state's resources. It is recommended that the Commission take action to regulate the oil production in the state to protect the environment and the state's resources.
