16. ABANDONMENT

(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. If the well is to be plugged, give pertinent details, and give pertinent dates, including estimated date of starting any  
plugging work. If well is to be abandoned, give subsurface location and measured and true vertical depths for all markers and zones perti-  
nent to this work.

**PROPOSED WORK:** We propose to plug and abandon this well by setting a 7" bridge plug  
at 3050'. A 75' cement plug will be spotted on top of bridge plug. We will attempt  
to salvage 7" casing from 1500'. We will set a 100' cement plug 50' inside and 50'  
outside stub of 7" casing. We will spot a 100' cement plug at 1275' to 1175'.  
We will spot a 100' cement plug at 650' to 550'. A 25' cement plug will be set at  
surface and regulation marker will be erected. Any pits will be filled and location  
leveled and cleaned of any junk.
