Re: Form C-120 Carper Kennedy
Flood, Grayburg-Jackson
Pool, Eddy County, N. M.

Gentlemen:

We note that in April, 1965, the Featherstone Lease was dropped from the subject report. This occurred when the lease was taken over by Ryder Scott Management Company. However, the Featherstone Well No.5-C, 2-17-31 and its Cumulative Injection total should continue to be shown in the injection wells section of the form. The well may be shown with a note showing the change of ownership. The addition of this well and the correction of an error results in a Cumulative Injection total of 1,187,456 barrels as of January 31, 1966.

If there are any questions on this matter, do not hesitate to call upon me.

Very truly yours,

Oil Conservation Commission
