13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The well was originally completed as a producer from the Grayburg-San Andres through perforations 2965'-3601' OA  
It was later converted to water injection in the same interval. The well is currently shut in. Devon plans to test casings,  
selectively perforate the interval 2827'-3615', treat w/15% NEFE acid as needed & return the well to injection.

14. I hereby certify that the foregoing is true and correct
