No well will be assigned an allowable greater than the amount of oil produced on the official test.	owable grea	ter than	n the am	ount of o	il produc	ed on the offic	ial te	st.			:	I he	reby c	ertify tha	it the abov	I hereby certify that the above information
During gas-oil ratio test, each well shall be produced at a rate not exceeding the top and account of the produced by more than 25 percent. Operator is encouraged to take advantage of this 25 percent tolerance in order that well can be assigned located by more than 25 percent. Operator is encouraged to take advantage of this 25 percent tolerance in order that well can be assigned.	well shall ator is enc	ouraged	to take	e advanta	age of th	is 25 percent t	olerar	ice in orde	that well	can be assi	gned.	ledge and belief.	and bo	elief.		•

located by more than 25 percent. Operator is encouraged to take advantage of this 25 percent tolerance in order that well can be assigned increased allowables when authorized by the Commission.

will be 0.60. Gas volumes must be reported in MCF measured at a pressure base of 15.025 psia and a temperature of 60° F. Specific gravity base

Report casing pressure in lieu of tubing pressure for any well producing through casing.

Mail original and one copy of this report to the district office of the New Mexico Oil Conservation Commission in accordance with Rule 301 and appropriate pool rules.
