Re: **Skelly Oil Company**

Skelly Unit #71-J 23-17S-31

We've carried this well P&A since 1948; recent report indicates that it is being re-entered for use as a water injection. Please include it on your weekly drilling list as a re-entry. It might be that you want to get a C-101 & C-102, also?

Thanking You,
