The elevation of the ~~drill floor~~ above sea level is 3600 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On January 21, 1963, we ran 592 feet of 8 5/8" casing in this well cementing with 50 sacks.

After ~~waiting~~ waiting for cement to set we drilled the plug and tests showed complete water shut off.

Drilling was continued.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
