Attn: Mr. Mike Williams

In visiting with Mr. Dick Stametz on July 20, 1982 by telephone in the Santa Fe office, a special hearing will be required because of the unorthodox location. Mr. Stametz suggests we apply to your office for a ninety day permit to test subject well and if the well proves economical, then request a special hearing for the approval of the unorthodox location.

Your consideration in this matter will be greatly appreciated.

Yours sincerely,

R.D. Henson
