Re: Continental State Well
No.5-C, 30-17-29, Eddy
County, New Mexico

Gentlemen:

On September 30, 1965, drilling operations on the subject well were suspended at a total depth of 951 feet. The well has been in a temporarily abandoned status since that time. On June 5, 1970, this office approved the change in ownership of other wells on this lease to Shenandoah Oil Corporation. Shenandoah advises us, however, that they did not acquire ownership of the subject well number 5.

At this time, we are asking that you submit plans to recommence the drilling of this well or outline a program for the plugging of the same. Please submit either proposal on Commission Form C-103 within thirty (30) days.

If there are any questions on this matter, please do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION

R. L. Stamets
