General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, in Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form, and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by the State or Federal office for specific instructions.

Item 4: If there are any applicable State requirements, locations on Federal or Indian lands should be described in accordance with Federal requirements. Consult local officials for details.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local, Federal and/or State officials. In addition, such proposals and reports should include reasons for the abandonment; data on the former or present productive zones with present significant zones above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in place; method of closing top of well; and date well shut in. Conditioned for final inspection looking to approval of the abandonment.
