C. C. C.
NEW MEXICO OIL & GAS CONSERVATION COMMISSION
ARTIFICIAL LIFT
PACKER SETTING REPORT

I, D. R. Layton, being of lawful age and having full
Name of party making report
knowledge of the facts hereinbelow set out do state:

That I am employed by Anadarko Production Company in the capacity of
Area Supervisor, that on 15 January, 1973

I personally supervised the setting of a Larkin C-275 Dual String Packer
Make & type of packer
in Anadarko Production Company, Loco Hills "B" Federal,
Operator of well *Lease name*

Well no. 1-9 located in the Grayburg Jackson field,

Eddy county, state of New Mexico, at a subsurface depth of

2057 feet, said depth measurement having been furnished me by

tubing tally taken by rig crew at time of operation;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

D. R. Layton *(Signature)*
Area Supervisor *(Title)*
16 January 1973 *(Date)*
