Gentlemen:

Amoco Production Company respectfully submits this application for and requests an administrative approval of a non-standard gas proration unit to cover the N/2 of Section 31, T-17-S, R-29-E, NMPM Eddy County, New Mexico. The proration unit will be assigned to Amoco Production Company's Empire South Deep Unit Well No. 5 located 1980' FNL x 2180' FEL (Unit G) of Section 31, T-17-S, R-29-E NMPM.

The necessity of this application arises over the fact that the N/2 of the Section consists of only 297.49 acres.

All acreage dedicated together with all offsetting acreage is within the boundaries of the Empire South Deep Unit as defined by NMOCC Order R-4185. Therefore, no notification is required negating the 30-day waiting period for administrative approval.

Your early consideration of this request shall be appreciated.

Yours very truly,
