13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This Square Lake injection well failed a mechanical integrity test on 4/19/00. We have determined there is a leak in the 4 1/2" casing between 1430' and 1461'. We propose to Dig 40' x 40' working pit. Notify BLM and NMOCD 24 hours prior to start. Set BP and packer and do a "Micro Matrix" cement squeeze to seal any holes. Test well to 300# for NMOCD required 15 minutes. Return well to active injection status.

14. I hereby certify that the foregoing is true and correct Name (Printed/Typed) STERLING RANDOLPH	Title PETROLEUM ENGINEER
Signature 	Date JUNE 6, 2000
