Artesia, New Mexico 88210

Dear Mr. Gressett:

The corrected Form C-104 is returned with the perforations we failed to report. The transporters for Oil and casing-head gas are not determined as of this date. The well is presently shut-in pending engineering decision as to the method of storage and sale of oil and gas. Also the well is under study for possible downhole commingling approval, holding for future use in waterflood or P&A.

The Form C-102 Acreage Dedication Plat has been enclosed as requested.

Sincerely,

Don Shackelford

Gentlemen:

We are returning the enclosed Form C-104 on the subject well for additional information.

Please complete by showing the oil and gas transporters and the perforations, and submit Form C-102, Acreage Dedication Plat.

If you have any questions concerning this matter, feel free to call upon me.

Sincerely,

*W. A. Gressett*
