Gentlemen:

Following is the "Surface Use and Operation Plan" for the drilling of the Anadarko Production Company Loco Hills Federal Communitization Unit Well No. 1 located 1980' FSL and 990' FWL of Section 29, Township 17 South, Range 30 East, Eddy County, New Mexico. This well is planned for gas production.

1. Existing Roads - A map is enclosed showing hard surfaced county road, which bisects Section 29 of Township 17-S, Range 30-E. The caliche pad for proposed exploratory well will be within 75 feet of center line of county road.
2. Planned Access Roads - Access road will be approximately 60 feet in length and approximately 40 feet wide. A low water crossing will be constructed of caliche in bar ditch area to assure proper drainage with no erosion. There will be no fences to cut or cattle guards to set.
3. Location of Existing Wells - The enclosed map indicates all existing wells in area, both active and plugged and abandoned. At this time there are no exploratory wells being drilled within a two mile radius.
4. Location of Tank Batteries, Production Facilities, and Production, Gathering and Service Lines - None of these facilities are in existence at this time. If production is established all production facilities will be constructed on drill site.
5. Location and Type of Water Supply - Fresh water to be used at drilling site will be furnished by Double Eagle Water Co. (City of Carlsbad). The Double Eagle Water line is indicated by a red line on enclosed map. Brine water will be brought
