

- C. The reserve pits will be plastic lined.
- D. The pad and pit area has been staked and flagged.

10. PLANS FOR RESTORATION OF THE SURFACE.

- A. After finishing drilling and/or completion operations, all equipment and other material not needed for further operations will be removed. Pits will be filled and the location cleaned of all trash and junk to leave the wellsite in as aesthetically pleasing a condition as possible.
- B. Any unguarded pits containing fluids will be fenced until they have been filled.
- C. If the proposed well is non-productive, all rehabilitation and/or vegetation requirements of the Bureau of Land Management and the United States Geological Survey will be complied with and will be accomplished as expeditiously as possible. All pits will be filled and leveled within 90 days after abandonment.

11. OTHER INFORMATION.

- A. Topography: The proposed wellsite is located in a relatively flat area, with undulations of 5 to 6 feet in height.
- B. The topsoil at the wellsite is moderately soft sand.
- C. Flora and Fauna: The vegetation cover at the wellsite is moderately sparse, consisting of mesquite, shinnery oak, prairie flowers and weeds. The only wildlife observed were lizards and rabbits, but it is likely that other wildlife typical of semi-arid desert land also inhabit the area. The area is used for cattle grazing.
- D. There are no ponds, lakes, streams or rivers within several miles of the wellsite.
- E. The nearest occupied dwellings are in the city of Loco Hills, approximately a mile east of the location. Holly Energy, Inc. occupies office space about a quarter of a mile west of the location. There are no windmills within the immediate area.
- F. The wellsite is on federal surface, with federal control of minerals.
- G. There is no evidence of any archeological, historical or cultural sites in the area of the wellsite.

12. OPERATOR'S REPRESENTATIVE.

- A. The field representative responsible for assuring compliance with the approved surface use and operations plan is:

Robert Loyd
Production Superintendent
Holly Energy, Inc.
P O Box 726
Artesia, New Mexico 88210
