Attention Joe D. Ramey, Director

Re: Green "B" #9 Well
South Empire Morrow Field
Eddy County, New Mexico

Gentlemen:

General American has drilled and completed the reference well located 1980' from North Line 2310' from East Line of Section 19, Township 17-South, Range 29-East, Eddy County, New Mexico. The acreage dedicated to this well is the North half of Section 19 in which General American owns a 100% working interest. The North half of Section 19 contains 290.64 acres due to a variance in legal subdivision one and two which contain 27.36 and 27.28 acres respectively as indicated on the attached plat which is a zerox copy of a U.S.G.S. map (Roswell 11) revised by R. R. Cunningham January, 1975.

Pursuant to Section "C" Rule 104 D II General American requests that the Division Director grant administrative approval to this non standard gas unit without notice and hearing.

Should you have any questions regarding this application, I would appreciate your contacting the undersigned at area code 214 368-5811. Any aid you could give us in the expeditious handling of this approval would be appreciated as we anticipate that connection will be made to the gas purchaser, Transwestern, on Wednesday, July 25, 1979.

Yours very truly,

W. T. Patterson

W. T. Patterson
Western Division Superintendent
