13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well was satisfactorily pressure tested on 12-4-92 per BLM specifications. The test was witnessed by Mr. Don Early of your Carlsbad office. Approval for a 12 month period ending 1-1-94 to continue temporary abandonment of the well was granted by David R. Glass on 1-12-93.

The well has potential use as a well in the shallower San Andres waterflood plans by the operator of the wells producing that zone.

Please grant another 12 months temporarily abandoned status based on the pressure test done on 12-4-92. The original pressure recording chart has been filed to the Carlsbad office.

APPROVED FOR 12 MONTH PERIOD
